

Please do nothing to the no-call list except maybe expanding it so that NO CALLS are made that are unsolicited by the owner of the telephone number. I want NO exceptions to the rule. When I sign up for no-call I want no-call. I have internet access, I know how to use the phone and phone book when I want to contact someone. If it's that important for someone to contact me...WRITE. This will free up my quiet time at home and add revenue to the US Postal Service.

Thank you.
